Open science

Open science is the movement to make scientific research, data and dissemination accessible to all levels of an inquiring society.

Project OpenAIRE

- International project, EC
- Long-term project
 - OpenAIRE (2009-2012)
 - OpenAIRE plus (2012-2014)
 - OpenAIRE (2015-2018)
 - OpenAIRE-Advance (2018-2020)

www.openaire.eu

OpenAIRE basis :

- Human support network
- Infrastructure
- Politics

OpenAIRE lines of action

- Infrastructure and connecting it to other infrastructures
- Information and communication technology solutions
- Methodologies and standardization
- Training support for the research community and more broadly
- Participation in the development and implementation of open science policy

Sounds familiar?

EOSC

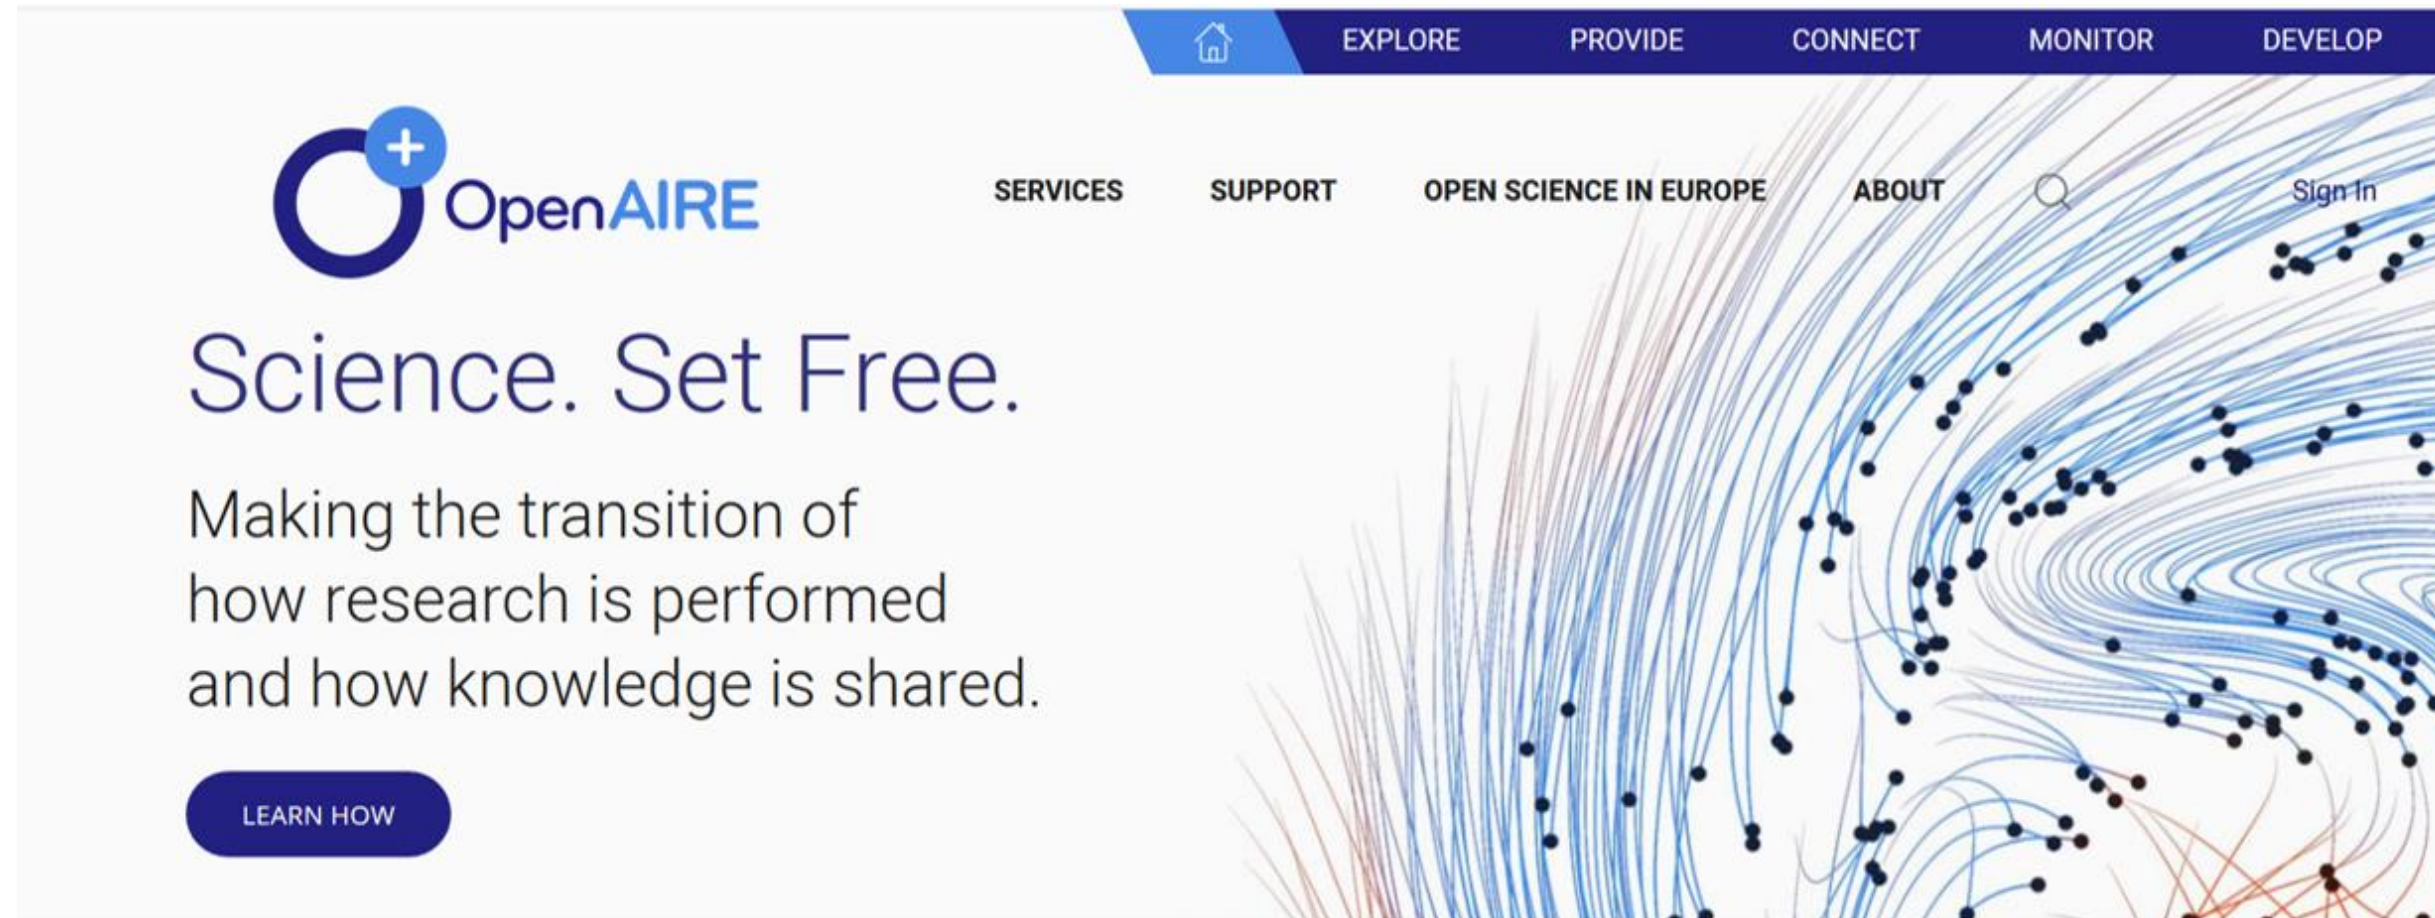

Carlos Moedas, Commissioner
for Research Science and
Innovation, 19.4.2016

«Our goal is to create a European Open Science Cloud to make science more efficient and productive and let millions of researchers share and analyse research data in a trusted environment across technologies, disciplines and borders.»

Services

Researcher, research community, content provider, or manager of research? Find a service that matches your needs.

Policies

Looking for information and instructions on open science policies? Access our resources or ask us a question.

Training

Need to learn how to implement open science? Browse through our guides and webinars. See what is coming next, or contact us for assistance.

Project OpenAIRE - Latvia

- Regional representative - University of Latvia
- Functions:
 - support for researchers, research project managers, science policy makers, publishers, library specialists all over Latvia
 - explaining open access and open science ideas to the society
 - providing information to interested parties / representatives of the scientific community outside Latvia
